

Section 1: Mission Statement

The goal of 5280 Detection club is to provide a community committed to promoting and training in Scent Work / Detection . This club will be a friendly and competitive environment fostering and encouraging the bond between dog and handler. We are dedicated to growing this amazing discipline / sport while maintaining our standards.

Section 2: Who We Are

5280 Detection Team was founded by Adam Deaver and Mitch Kibel, both long time dog sport enthusiasts, Trainers, Handlers avid Detection and Scent Work competitors. We love the hunt!!!

Whether its real world application (narcotics, explosives, firearms) or competing in sport this club is for you. Scent work is not only a great outlet for your pup but will also provide you the ability to be a part of a community of like minded people.

Section 3: Building a Community

One of the biggest goals of 5280 Detection club is to build a community of like minded individuals. Club should be a place where handlers and owners from various disciplines come together to connect, collaborate, and help each other. Club is a place we will come together on a weekly basis to develop and train in their specific discipline. This will be for those individuals that are goal oriented with things like competition/ real world applications in mind. Continued growth of the foundational work already done outside of the club will be the focus.

Section 4: Eligibility Requirements

- Dog and handler teams will be **accepted** and on a case by case basis
- Dogs must be imprinted on Odor/Scent prior to club
- All dogs must be healthy and have current vaccinations
- All teams must be looking to compete, correctly competing, or working professionally.

Section 4: Club Structure

Frequency: Club will take place every other Saturday of the month (2 club meet ups each month)

Time: 9:00-12:00

Price/Dues: \$375 per year

Location: MOC K9 Facility will always be club meeting unless we decide to go out to another location.

Section 5: Attendance/Involvement

- Regular attendance is expected unless you have let training director know you cannot make it that week.
- The club will meet for group discussion and footage review quarterly/goal setting quarterly. Meeting times and location tbd but should most definitely include ability to bring or purchase beer and food.

Section 6: Etiquette

- If you're not 15 min early you're late. We expect everyone to be on time for club and stay late to help clean and put facility back together from club.
- Session goals should be discussed prior to club with training director so when it is your turn to go there is a clear goal.
- Suggestions/feedback for the team should be reserved for when handler specifically asks for advice or quarterly group discussion. Want to avoid too much feedback being given in the moment while handler is working with dog.
- As teams get closer to trials, I want to try and have as many club members go to that trial as possible. Show as much of a unified and supportive front as possible.
- You K9 should be safely secured in your vehicle. If you are private or civilian we do expect your dog to be in a kennel not free ranging your vehicle

CLUB ROLES

TRAINING DIRECTOR : Adam Deaver
